PlayGreat @ Connections SLP

PlayGreat is our very own, very unique, program for families of children in grades 1-6 who are ready to learn and talk about making and keeping friends. We focus on providing parents with a strong understanding of the skills needed to form meaningful two-way friendships and coaching families to support their children in fun, everyday interactions with peers.

Through our focused parent-coaching approach, we help parents/caregivers learn to use their children's strengths and interests to create and coach successful playdates and get-togethers with peers. This program uses a combination of evening group sessions for parents/caregivers and individual parent-child sessions scheduled at a time convenient for your family.

This program may stand on its own or complement other child-only, clinic-based, social groups offered elsewhere by helping families to apply skills learned in a clinical setting to interactions with peers at home.

Parent group sessions utilize larger group discussion and break-out rooms in which families are matched by children's age. These sessions focus on:

- learning to have positive coaching conversations with your child
- supporting the development of social self-regulation
- understanding the building blocks of friendship
- learning to help children find friends
- learning how to offer just the right level of support for your child as we work toward your chosen friendship goal or focus

Individual parent-child sessions focus on supporting each parent-child team before, during and after in person or virtual get-togethers with peers. For children who do not yet have a peer to hang out with, our clinicians will work flexibly with you to help you build foundational friendship skills and/or to seek out sources of good-fit friends. Live, virtual individual coaching sessions use a combination of formats to best meet your family's needs.

This program includes:

- 16 hours of parent-only group evening sessions
- 5 hours of individual coaching and consultation sessions

Cost information:

- Group sessions are billed at \$100/hour and individual sessions at \$175/hour. The cost for the program is \$1600 for 16 hours of group sessions and \$875 for 5 hours of individual sessions for a total of \$2475 for 21 therapy hours with a registered speech-language pathologist.
- All sessions are led by registered speech-language pathologists and may be covered by extended health care plans. Families may also choose to use OAP funding for this program.
- Group sessions are billed in 4 payments during the course of the program and individual sessions are billed on the day they occur.
- Group start date will be confirmed upon enrollment of a minimum of 5 families.
